# A valuable lesson delivered in mime

DRAMA students were mesmerised by visiting Japanese actors in a mime production at Busselton Senior High School last week.

Drama teacher Lee Cooper said it was a great opportunity to expose her students to performers from a different culture.

"I thought it was great how our students learnt a little about Japanese culture through this performance," she said.

"The play was really about how modern man is destroying the earth, and how we have to convert everyone to start looking after the environment or we will soon run out of basic necessities," Ms Cooper said.
